Venue: Beauty Impress office, Mid Valley City

To register please call 03 2287 2522, and be entitled to a goodie bag.

(Entry is free and limited to 30 participants only)

THE TUA 360°, a body-shaping belt may just be the answer to your fat woes. Easy to use, all you have to do is wet the given sponges, slip them onto the electrodes and turn on the power.

It is so convenient that you can carry on with your daily activities while having it on your body.

TUA 360° runs off a 9V alkaline battery so there is no need to plug it into an external power source.

With a Velcro extension belt, anyone can wear it with ease.

It uses electrostimulation, to exercise the deep body muscles, not vibration to massage the skin surface like ordinary massage belts.

It performs passive exercise on your muscles to achieve the same results as real physical exercise.

A 30-minute session with TUA 360° is as good as doing 200 sit ups.

You can find the TUA 360° at these following outlets in the Klang Valley: Vitacare, Constant, Omei, Alpro, Pinang Medical Supplies, Maycare, selected Caring outlets (One Utama Shopping Centre, Hartamas Shopping Centre, Pavilion, Bangsar Village I, Sunway Pyramid and Subang Parade) and selected Health Lane outlets (Kepong Maluri & Bandar Sri Damansara).

Using electrostimulation TUA 360° targets deep body muscles, unlike ordinary massage belts.

Pick up the TUA 360° at Pinang Medical Supplies (Kedah); Maycare and Pinang Medical Supplies (Penang); Pinang Medical Supplies (Malacca); and Maycare and Pinang Medical Supplies (Johor).
